

CREEPER AQ Low Fog Generator

CREEPER AQ is a water based low fog generator, different from most of low fogger on the market, CREEPER AQ based on ultrasonic technology, the main consumable is purified water, no need dry ice, ensure it not only environmental friendly, but also more cost effective.

Features

- \ Molded enclosure, lighter, durable as well as rustless
- \ More atomizers, thicker fog output
- \ Weather proof design
- \ Advanced auto water refill system
- \ Low-fluid and low-water sensor
- \ Multi-optimized air supply system, ensure farther and more uniform fog output
- \ Adjustable fog density, moisture and fan speed, versatile application to meet different requirements
- \ Patented fog leakage prevention technology, no fog leakage even refill the machine when it is working
- \ 3L fluid tank
- \ User friendly LCD control panel
- \ DMX control, 2/3 channels optional
- \ Wireless remote control
- \ Seetronic® IP65 rated 3-pin and 5-pin XLR connector

Specifications

Dimension

805 x 390 x 445 mm

Net Weight

31 kg

Input

200-240VAC, 50/60 Hz

100 -120VAC, 50/60 Hz

Work power

2000W

Heat up time

4-5min

Fog output

15000cuft/min

Fluid consumption at max fog output

35ml/min

Fog fluid tank capacity

3L

Water tank capacity

24L

Interface

3-pin & 5-pin XLR

Control

DMX, 2/3 channels

Remote control
